

ActivInspire to Explain Everything & Explain Everything Advanced Migration Guide

Getting started

As with **ActivInspire**, creating engaging and dynamic lessons with **Explain Everything** is easy and fun. Let's begin.

1. To log in to your account, you may navigate to www.explaineverything.com or access Explain Everything from your [Promethean account](#).
2. Upon signing in to your account, the **My Drive** dashboard will appear. From here, you may select **New Project** to begin a new interactive project, or select from your pre-created projects.

You also have the option to organize your content into folders, filter your content, and adjust the way your content is displayed.

3. To create a new project, choose from options:
 - a. Blank Canvas – Start a completely new project.
 - b. Template
 - c. File – Import existing Flipcharts, documents, and .csv files from your device or cloud storage.

When opening ActivInspire and Explain Everything, the Welcome Screen and New Project Menu appears.

Toolbar**

Start a new project with a flipchart

To use an existing ActivInspire flipchart in Explain Everything, export the flipchart as an .iwb file from ActivInspire.

Then, from Explain Everything's New Project screen, select **File** to upload the .iwb file.

Importing files

To import files into Explain Everything, such as **PDFs**, select **Media** from the toolbar, then select **Files**.

Here, you can also select sources like your **device**, **Google Drive**, **Microsoft OneDrive**, or **Dropbox**.

Importing Promethean Whiteboard (.pwb) files

With **Explain Everything**, you can create a fun, encouraging, and interactive environment and easily present engaging materials to help your students learn and grow.

Follow these four steps to quickly open your Promethean Whiteboard files in Explain Everything.

1. Select **Project Options** (three dots).
2. Select **Open**.
3. Navigate to and select your **Promethean Whiteboard file (.pwb)**.
4. Your Promethean Whiteboard file will open in the Explain Everything Whiteboard.

Creating from a Template

ActivInspire users will be delighted to discover our **Template Library**, filled with pre-made, editable templates, and most importantly, created by educators. New templates are continuously added to the library. To start with a template, simply choose Templates from the New Project Menu.

Here you will discover a plethora of options to choose from for your new project.

Polling*

With ActivInspire, you could create polls using **Connected Devices** and **Questions**. In our Explain Everything Advanced plan, you may create polls by selecting **Apps**, then **Polling**., which opens a new window where you can launch your polls. You may share polls with students via website link or QR code. Here are several poll types you can utilize.

- Multiple choice
- Text response
- Blank
- Creative

Explain Everything Advanced Polling comes with additional features that include changing the font, font color, font style and size, adding a background color to polling card, and inserting an image from a device.

*See additional Explain Everything Advanced Features Below.

Screen recording

Screen Recording in Explain Everything can be found at the bottom center of your screen.

Exporting and sharing

Exporting a file from Explain Everything is fast and simple. In the top right of the screen, select the **Share** icon.

Options will appear to **Create Web Video Links**, **Export**, and **Broadcast**. Select **Export**.

You will be given the option to export as a **Document**, **Image**, or **Project**.
