

CHANGE WALLPAPER

Learn how to change your Activpanel's wallpaper, from your Promethean account.

You can easily change the wallpaper displayed on the home screen, from the ActivPanel, from a web browser or from your Smartphone or tablet.

ActivPanel

- **Sign in** to ActivPanel with your **Promethean account**.
- Open **Menu - Applications - Settings**.
- Select **Display - Advanced - Background**
- Click on **Backgrounds** and select a Background. You can use My images to browse images on ActivPanel, your cloud drives or from a USB stick.

Web browser

- **Sign in** to **OnePromethean**, click on your picture in the top left corner and select **Account**.
- Select **Display settings** and then **Browse** to select an image from your device, or simply drag it onto the ActivPanel picture in the browser.

Smartphone or tablet

- Open the **Promethean** app and check that you are logged in.
- Select **Account**.
- Select **Display settings** and then **Browse** to select an image from your device.
