EXPLAIN EVERYTHING: PICTURE OR VIDEO FROM EXTERNAL CAMERA

Learn how to add pictures or video from a connected external camera.
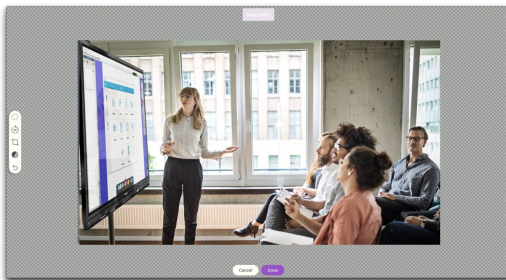

Add picture or video from a Camera

Explain Everything lets you easily add a wide range of media and files to the canvas, using the Add Media button.

Select Add Picture to insert a picture from a web or document camera connected through USB to the ActivPanel.

Select ✓ to take a snapshot, crop to desired size in the Image Editor and press Done to insert the picture.

(Please ensure the camera is approved for Android).

Select Add Video to insert a live feed from the camera. You can mark, move and resize this feed to place it where you please on your canvas.

Use the Record ● button to record a video clip and afterwards play it back with the controls.
