

EXPLAIN EVERYTHING: BACKGROUND COLOR & PATTERNS

Learn how to change background colors and add grids to the canvas

Background Color and Patterns

There are several ways to change the color of your canvas in [Explain Everything](#). One of the simplest is to select the **Fill** tool, choose your preferred **color** and simply click an empty area of the **Canvas**.

For more advanced options, select the **hand** tool, long-press an empty area of the **Canvas** and select **Edit Background** from the contextual menu, or from the **Kebab** menu.

- 1 Use these buttons to switch between the **extended** and **basic** color palette. You can also use the custom color button and choose any color from the color wheel, or press here to put a Hex color code.
- 2 Switch between **Pattern** and **Background** color selection.
- 3 Select your preferred **Pattern** here.

When satisfied with your **Background color** and **Pattern**, select **Done**.
