

IMPORT IMAGE FROM CHROMIUM TO WHITEBOARD

Learn how to import an image from the Chromium browser to the Whiteboard app.

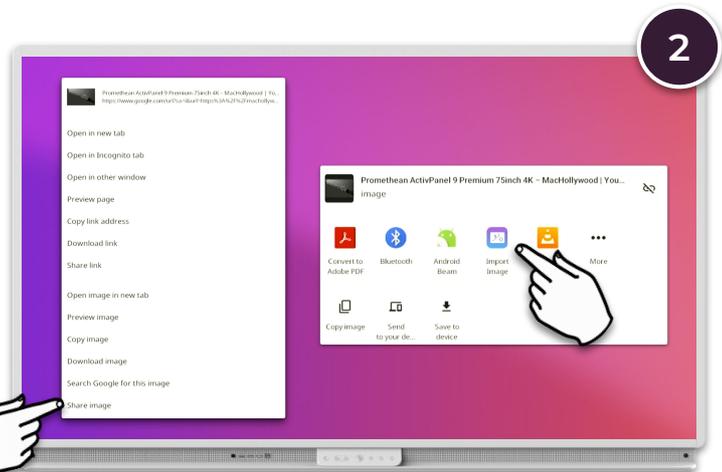

Import image from Chromium

As an alternative to [Screen Capture](#), you can import images from the [Chromium browser](#) directly into the [Whiteboard](#) app.

1 Locate the image you want to import in the Chromium browser. Press and hold on the image preview to show contextual options.

2 Select **Share image** and then **Import image**.

3 The image is automatically copied into the [Whiteboard](#) app.

 Be aware of copyright laws, when using images from the Internet.
