

MATH TOOLS

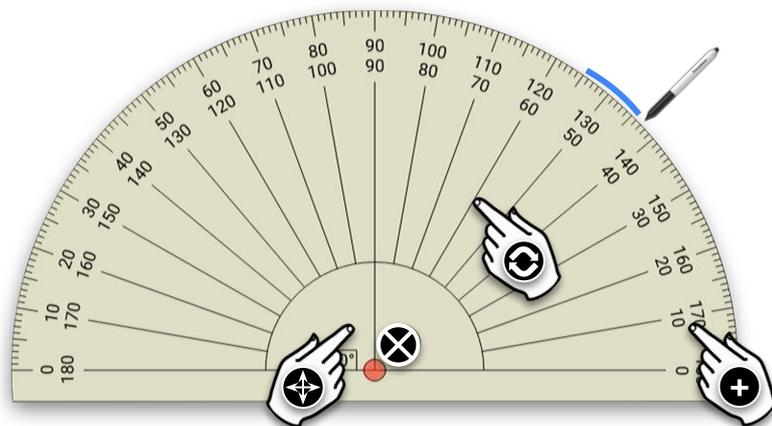

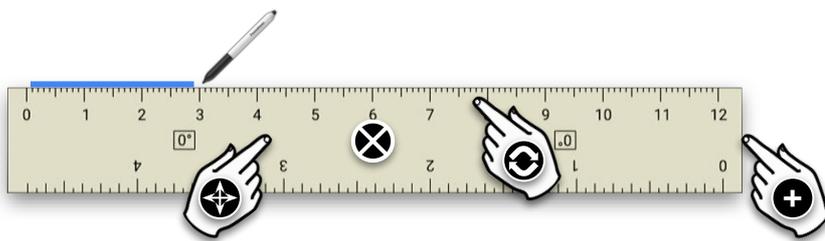

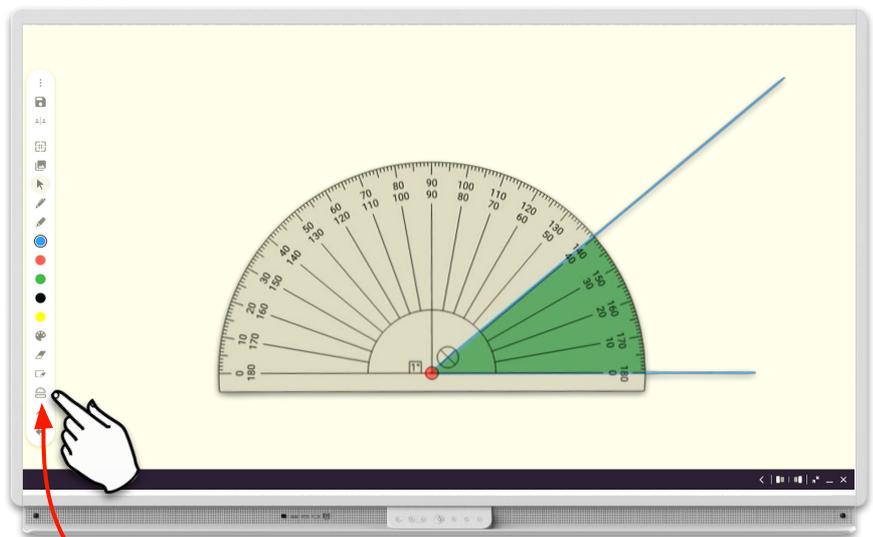

Learn how to use the math tools in the Whiteboard app.

Math tools

The Whiteboard **math tools** are great for everything from straight lines to geometric construction. Operate them with either one or two fingers.

You can freely move, rotate and resize the tools. When using one finger, the action depends on the area you press and drag as shown below.

-  Drag here to **move**.
-  Drag here to **resize**.
-  Drag here to **rotate**.
-  **Select** to **close** the tool.
-  **Draw** with the **pen** along the edge.
