

# OPEN A SECOND BROWSER WINDOW

Learn how to open an additional windows in the Chromium browser.

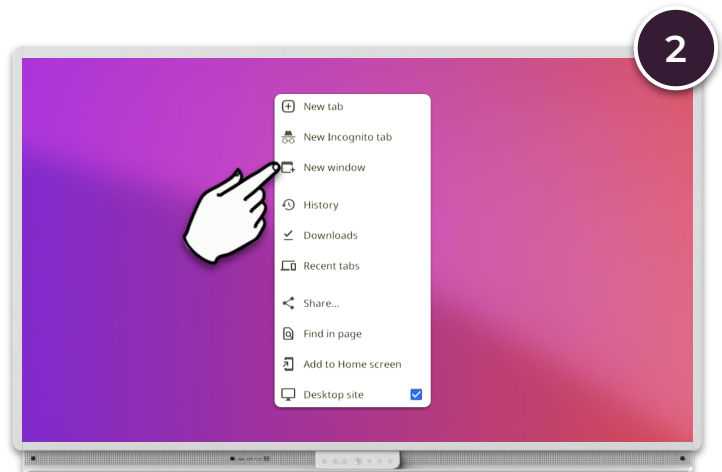

## Open a second window

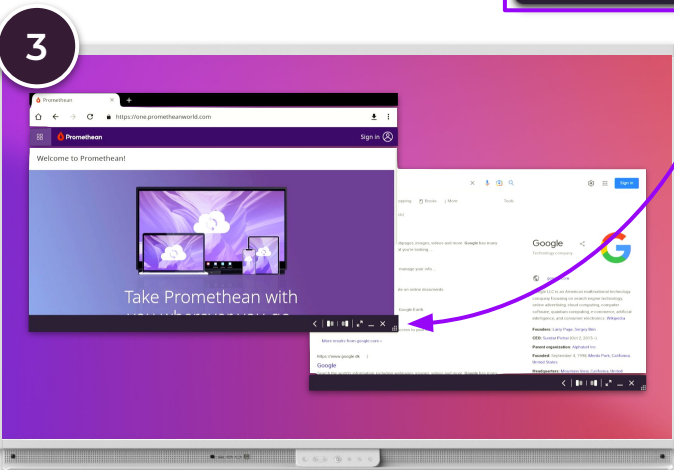

The Chromium browser offers great flexibility, by allowing multiple open browser windows simultaneously. To open a second browser window, follow these steps:

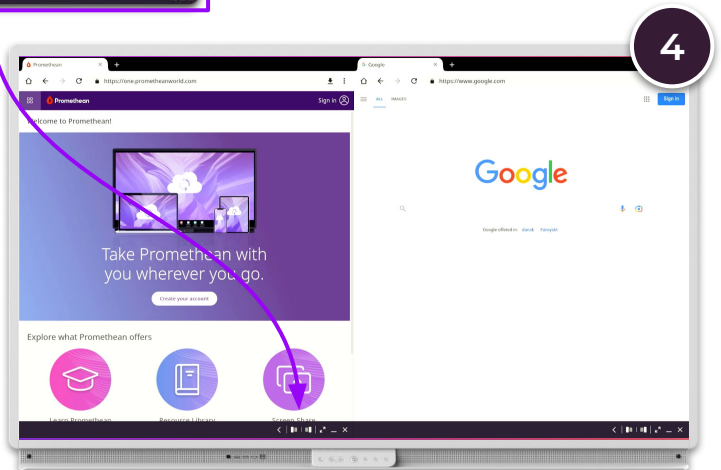

With the **Chromium browser** open, select the **Kebab menu**.

Select **New window**.

The new window will open on top of the existing one. Use the **Multi-window toolbar** to **drag**, **move** and **resize** them...

... or **dock** them **left** and **right**.
