

# SIGN IN ON ACTIVPANEL 9

Learn how to sign in to ActivPanel 9 with your Promethean account.

## Sign in on ActivPanel 9

Start by selecting log in from the welcome screen, then use one of the following options:

- 1 Open a web browser on your laptop and sign into your Promethean account on [OnePromethean](#). Enter the 6-digit code shown on your ActivPanel in the browser window and press **Sign in**.
- 2 Open the Promethean mobile app on your mobile device and enter the 6-digit code, or select **Scan QR** and scan the code displayed on the ActivPanel.
- 3 Select **Use your school email account** and enter your **email** address and **password**. We recommend using an external keyboard so students cannot read your password.

 You can also select **Continue as guest**. As a guest user, you can still use all the screen's apps and functions, but none of your settings are saved or synchronized with your **Promethean account**.
