

WHITEBOARD TOOLBAR EXPLAINED

Learn how to access and use Whiteboard app features from the toolbar.

Toolbar

The Whiteboard app: offers endless possibilities and is perfect for every content area.

-  use the **Selector** tool to select and move objects on the infinite whiteboard area, or to **pinch** and **zoom**.
-  Select the **Pen** or **Highlighter** tools, to start annotating. Press again to select a different **width**.
-  Select the **Color palette** to change the ink color, or select one of the default ink colors above.
-  Select the **Eraser** to erase ink.
-  Select **Clear all annotations** to delete all ink.
-  Select the **Background** tool to add a **grid** to your whiteboard, or change the background color.
-  Select **Math tools** to access the **Ruler** and **Protractor** tools.
-  Select **Multi User mode** to **split** the whiteboard, allowing two users to work independently.
-  Select **Gallery** to access pre-installed **templates**, as well as any **screenshots** you have taken on the ActivPanel.
-  Select the **Save** button to save your whiteboard file (**.pwb**).
-  Select the **Kebab menu** to access more options like **Open**, **Export** and **Toolbar position**.
-  Use the **Arrow** buttons to **undo** or **redo** your latest actions.
