OPS-A and OPS-A2 Ports

Getting Started

When starting the OPS-A for the first time, follow the onscreen prompts.

<p>Hi there</p> <p>English (United States)</p> <p>Vision settings</p> 	<p>Connect to Wi-Fi</p> <p>Select a network</p> <p>Select your network Enter the network credentials</p> 	<p>Copy apps & data</p> <p>Sign into your Google account after this step</p> <p>Select Don't copy</p> 	<p>Google services</p> <p>Confirm choices Select Accept</p> 
<p>Set a PIN</p> <p>Set a pin using the onscreen keypad, then tap Next.</p> <p>You can also choose Skip in the bottom right corner. It is <i>highly recommended</i> that you set a pin to protect your credentials.</p> <p>Other Screen lock options are available.</p> 	<p>Activate Voice Match to use "Hey Google"</p> <p>To setup Google Assistant, you will need to plug in a microphone Select No Thanks or I agree</p> 	<p>Access your Assistant without unlocking your device</p> <p>Select Skip or I agree</p> 	<p>Anything else?</p> <p>Select additional items to setup or select No thanks</p> 

Finally, tap **Accept** to accept the Promethean Software End User License, Service Agreement and Privacy Policy.
