

How to Change the Toolbar Position in the Promethean Whiteboard App

The Promethean Whiteboard app toolbar resides on the left by default, but you can always change its position. This could be handy for left-handed individuals, or just personal preference.

Tap the **Menu** button and select **Toolbar Position**.

The toolbar automatically slides to the right side of the screen. All tools and features continue to function as usual. You may change the toolbar position at any time.
