

## How to Use the Annotate App for ActivConnect OPS-G and ActivConnect G

The Promethean Annotate app is perfect for adding annotations over anything displaying on your panel's screen, empowering you to make the most of teachable moments.

To access, tap the **Pink Menu Button**, then the **Annotate** app. It resembles a writing utensil and is the third option from the right.

The toolbar appears. Drag to move it anywhere on your screen. Choose between a **Pen** or **Highlighter**. Tap the **Pen** or **Highlighter** button once more to change its width. Choose from five ink colors.

Use the **Eraser** to erase a bit of an annotation, or use **Clear All Annotations** to start fresh.

Tap the **Eye button** to exit annotate mode and interact with apps on your screen. Tap the Eye button once more to return to annotate mode and continue annotating.

Use the **Undo** and **Redo** buttons to make quick corrections.

Tap the **X** to exit the app. All annotations will disappear on closing the app.
