

How to Connect Devices Using the Promethean Screen Share App on Your ActivConnect OPS-G

The Promethean Screen Share app allows you to quickly connect and mirror student devices and lends itself perfectly to classroom collaboration and student-driven learning.

To begin, please be sure your ActivConnect OPS-G is running the most up-to-date software. To update your ActivConnect OPS-G, please visit support.prometheanworld.com/article/1556/.

There are three types of devices you may use to connect.

Sender for Windows,
Mac, and Linux*

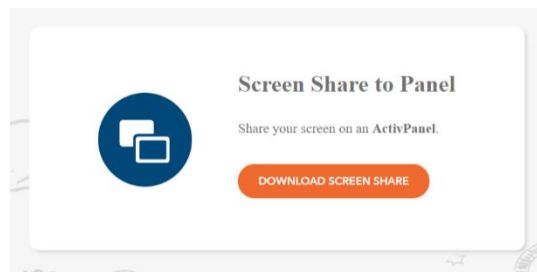

Chrome Extension

MyPromethean
iOS / Android app

*Supports Touchback

To download the sender for your device, visit share.mypromethean.com. When you click **Download Screen Share**, the site will detect your device and download the appropriate version.

To begin connecting devices, select the **Promethean Screen Share App** from your homepage.

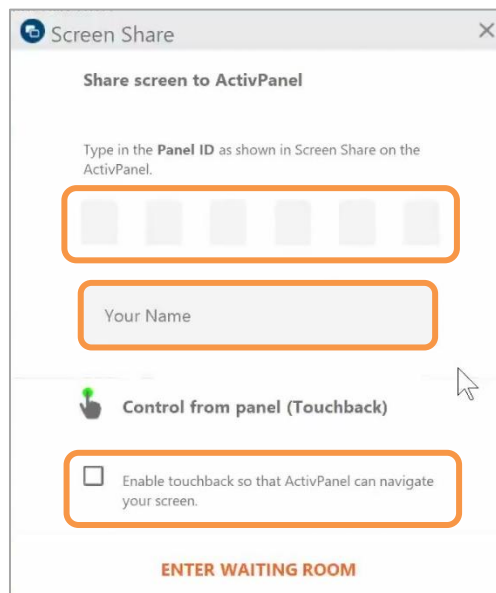

Promethean®

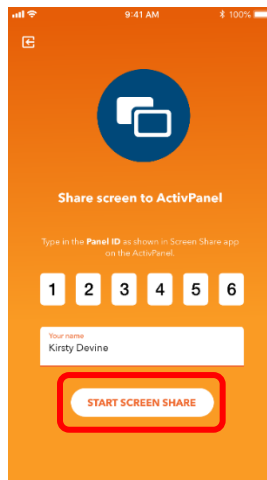

A floating window appears. You may move this anywhere on your screen. You may **name** your panel, tap the **reset** button to generate a new 6-digit panel ID, or tap the **people** icon to enter the waiting room.

To connect from a computer with the Share Screen Sender, enter the **panel ID**. Next, enter your **name**, and be sure to **enable touchback**. Then select **Enter Waiting Room**.

Students will enter the **panel ID** and their **name** within the Chrome extension or the mobile app. Then select **Start Screen Share**.

Connected devices will display within the Waiting Room. Tap a student's name to share a single screen or select up to four students to share simultaneously. Once you have selected their names, tap the orange **Share** button at the bottom of the waiting room window.
