

## How to Use ClassFlow Marketplace

The ClassFlow Marketplace is one of our users' favorite areas of the site. Marketplace contains both free and paid ready-made resources you can use with your students, saving you valuable time.

Select the **Marketplace** tab. Use the **filters** on the left to narrow down content, search for keywords in the **search bar**, or select the small **funnel** icon to search by standard.

Click on a thumbnail to learn more about a resource.

Preview the asset before adding it to your ClassFlow account, share it with colleagues, and scroll down to learn more details. Select **Add to My Resources**, and the resource will be available under the **Resources** tab in a folder titled **Marketplace**. Select **Deliver** to begin using the resource immediately.
