

How to Install the ClassFlow App from the G Suite Marketplace

The ClassFlow application within the G Suite Marketplace provides you a seamless, time-saving way to create and utilize ClassFlow lessons, activities, and stand-alone assessments.

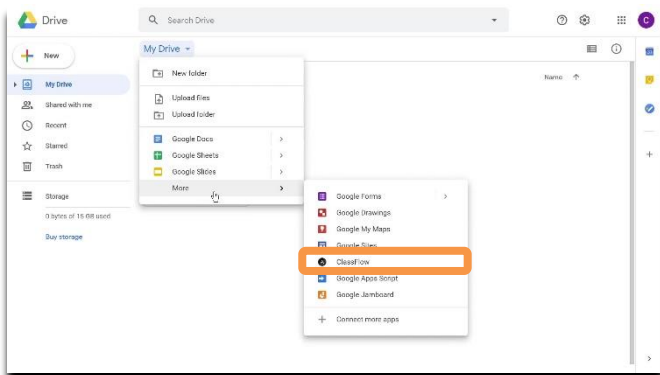

To install the ClassFlow app, begin in your Google Drive account. Select **New**, then **More**. Slide to the right and select **Connect More Apps**.

In the search bar, look for ClassFlow. Once the app appears, select the **Google Drive Add** icon.

Next, select **Install**. You will be prompted to confirm. Select **Continue**. Next, you will select which Google account you wish to add the ClassFlow Drive App to. Once this process is complete, you may be prompted to make ClassFlow the default app for files it can open. Select **OK**. Finally, you will receive a confirmation. Select **Done**.

Access the ClassFlow app from Google Drive by selecting the **My Drive** dropdown, then **More**.

Slide over and select **ClassFlow** from the list. You may be prompted upon first use to indicate which ClassFlow website you typically use. Prod.classflow.com is the default. Then, select **Sign in With Google**. You will be prompted to choose your ClassFlow account.

You will now be able to create and access ClassFlow resources.
