

## How to Access Delivered Polls in ClassFlow

ClassFlow automatically saves all your students' poll results so you may refer to them at any time. Polling is an ideal way to collect formative feedback from your students.

To view poll results from a rostered class, begin on the **Classes** page. Expand the **Class Menu** and select **Delivered Polls**. Choose the **poll** you wish to review. Use the date, time, and lesson name to help you identify poll results.

Once selected, you can delete results or select **Review** to view each poll in greater detail.

The screenshot shows the ClassFlow web interface. At the top, the 'CLASFLOW' logo is on the left, and user icons are on the right. Below the logo is a navigation bar with 'Home', 'Classes' (highlighted with an orange box), 'Resources', and 'Marketplace'. On the right of the navigation bar is an 'Open Class' button. The main content area is titled 'Science Class' and 'Delivered Polls'. On the left, a sidebar shows 'My Feed' and 'Science Class' (highlighted with an orange box). Under 'Science Class', there are links for 'Roster', 'Delivered Lessons', 'Delivered Polls' (highlighted with an orange box), 'Delivered Assignments', and 'Delivered Assessments'. The main area displays a list of polls: 'Parts of a Cell - Review' (04/04/2018 2:36:18 PM), 'Mount Everest, What is Erosion?' (04/04/2018 2:24:14 PM, highlighted with an orange box), and 'Body Systems and their Functions' (04/04/2018 2:22:35 PM). To the right of the list, a detailed view of the selected poll is shown, including the date and time '04/04/2018 2:24:14 PM', a 'Review' button (highlighted with an orange box), and poll details: 'Type: PollSession', 'Started: 04/04/2018 2:24:14 PM', 'Poll Count: 8', and 'Lessons: Mount Everest, What is Erosion?'.

Depending on the type of poll you issued to students, you may have multiple viewing options available, including bar and pie graphs. Click **Exit** to return to the Classes tab from the Review screen.

You may also view delivered poll results in the Class Feed and My Feed areas of the **Classes** page. Polls delivered via Open Class will only display in the **My Feed** section.
