

## How to Access My Account in ClassFlow

To access your account credentials and profile in ClassFlow, select the **avatar** or your initials in the top right corner. This also displays the ClassFlow version number and allows you to log out. Select **My Account**.

Customize your avatar by clicking the **three vertical dots**. Choose from the image library, take a new photo, or upload an existing photo. Be sure to click **Save** after making changes.

Select the **About Me** or **My Classroom** section to input details about yourself and your teaching environment. If you decide to publish any of your resources to the ClassFlow Marketplace, this will give fellow users the ability to learn a bit more about you.

Select **My Account** to access additional information, including resetting your password.

Select **Marketplace** to see details about published, purchased, or sold resources.

To exit My Account, simply click the Home, Classes, Resources, or Marketplace tab.
