

## How to Connect Your ActivConnect OPS-G to Your ActivPanel Nickel

To connect your ActivConnect OPS-G to your ActivPanel, begin by ensuring you are running the most up-to-date firmware. Please visit [support.prometheanworld.com/update](https://support.prometheanworld.com/update) and/or [support.prometheanworld.com/article/1744/](https://support.prometheanworld.com/article/1744/) for more information.

Install the ActivConnect OPS-G in the OPS slot on the side of the ActivPanel. Next, ensure your ActivConnect OPS-G is ready to connect to your ActivPanel. Visit [support.prometheanworld.com/article/1753](https://support.prometheanworld.com/article/1753) for more information.

Access the **Unified Menu** and tap **Source**. Select **OPS** to switch over to your ActivConnect OPS-G.

You will want to ensure your ActivPanel and ActivConnect OPS-G are connected to the same internet network.

Next, locate your ActivPanel's serial number by opening the **Unified Menu**, then the **Locker**. Select the **Update** icon from the apps tab in the locker. Make note of the serial number which is found at the bottom left corner of the Update window.

Open the **Unified Menu** once more and tap **Source**, then select **OPS** to return to the ActivConnect OPS-G.

# Promethean®

Swipe down from the **top** of the screen to display notifications, and tap on the notification that reads “**Cannot find Panel Serial number in...**”

Enter the ActivPanel's serial number and tap **OK**. The serial number is not case sensitive.

The ActivConnect OPS-G screen will update. The app bubbles and the pink menu button on the home page will disappear.

You can confirm that the integration is complete by swiping down from the top of the screen and the notification will now read “Connected IP...”

From now on, all apps installed on the OPS-G can now be found within the Locker for easy access.
