

How to Use the Promethean Annotate App on Your ActivPanel Nickel

The Promethean Annotate App is perfect for adding annotations over anything displaying on your panel's screen, empowering you to make the most of teachable moments. You may also use it over top of connected devices.

To access, tap the **Unified Menu**, then the **Annotate** app. It is also accessible from your **Locker**.

The toolbar appears. Drag to move it anywhere on your screen. Choose between a **Pen** and a **Highlighter**. Tap the **Pen** or **Highlighter** button once more to change its width. Choose from five ink colors.

Use the **Eraser** to erase a bit of an annotation, or use **Clear All Annotations** to start fresh.

Tap the **Eye button** to exit annotate mode and interact with apps on your screen. Tap the Eye button once more to return to annotate mode and continue annotating.

Use the **Undo** and **Redo** buttons to make quick corrections.

Tap the **X** to exit the app. All annotations will disappear on closing the app.
