

How to Use the Promethean Capture App on the ActivPanel Nickel

The Promethean Capture app allows you to capture and crop anything displayed on your panel's screen, enabling you to organically create lessons and activities.

To use Capture, access the **Unified Menu**, then tap **Capture**.

You will see two options: **Open in Whiteboard** or **Close**. To use the entire image, select **Open in Whiteboard**.

You may move, resize, and rotate the image in Whiteboard as you wish. Add annotations, interact with math tools, and more.

To crop a captured image, access the **Unified Menu**, tap **Capture**, then use the sizing handles to modify the image as you wish. Tap **Done** to finalize cropping.

You will once again have the options to **Open in Whiteboard**, or **Close**. You may wish to save this new Promethean Whiteboard file.
