

## Pre and Post Evaluation Questions

### Pre-Evaluation Questions:

- How do you communicate expectations to students and parents?
- How do you convey your instruction plans for the week, including learning objectives, required activities, assignments and due dates?
- How are you fostering synchronous and asynchronous learning opportunities?
- How do you provide additional learning resources for students?
- How do you provide additional navigational support for parents?
- When are your office hours and how do students schedule time with you? Are your office hours spent mostly on tech support and navigation or content support?
- During lessons how do you interact with students in real-time to deliver lessons, facilitate discussions, and lead other instructional activities?
- How do students access lesson content and resources post session?
- How are you ensuring modifications are met?
- Provide me with a few questions that you will ask during your lesson to encourage engagement and drive collaboration.
- How has your classroom management evolved?
- How are you maintaining rigor?
- What apps will you be using?
- How did you prepare students to use the technology tools for your lesson?
- What opportunities will students have to design and be creative?
- How did students apply knowledge gained?
- How did you move your classroom visuals to your online environment?

# Promethean®
