

How to Use the Center Console on Your ActivPanel Titanium

The ActivPanel Titanium has an ergonomic center console that sits at a comfortable 30-degree angle to provide quick and easy access to navigation buttons.

1. **INSTANT POWER ON:** When the proximity sensors detect a person near the ActivPanel, they immediately initiate the boot up process. Press the Power button once and the screen turns on in less than a second! Following this, once the panel goes into standby mode, you may tap anywhere on the screen to turn the ActivPanel back on.
2. **VOLUME:** The Volume buttons allow you to increase or decrease the audio coming from the bass-enhanced speakers.
3. **PROMETHEAN FLAME:** The Promethean Flame button opens the Unified Menu.
4. **FREEZE:** The Freeze button freezes the current image on the screen.
5. **TOUCH:** The Touch button allows you to manage panel interaction by turning touch on or off.
6. **SOURCE:** The Source button allows you to switch to any device that is connected to the ActivPanel.
