

How to Change Your Wallpaper on the ActivPanel Titanium

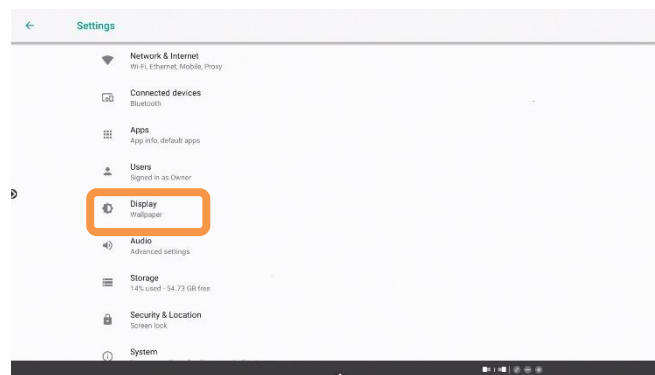

There may be instances in which you wish to change the wallpaper on your ActivPanel's home screen. To do this, begin by accessing your **Unified Menu**, then tap **Locker**.

Next, select the **gear** icon on the left to go to the **Settings** tab within your Locker. Choose **More Settings**.

Within More Settings, select **Display**.

Choose **Wallpapers**. Tap **My Photos** in the bottom left corner to locate the image you wish to use for your new wallpaper. This could be an image saved to your panel or from a connected USB drive.

Once you have chosen a new image, tap **Set Wallpaper** in the upper left corner. Next, choose **Home Screen**. The wallpaper is updated immediately. You may change it again at any time.
