

How to Use Recent Apps on Your ActivPanel Nickel

The Recent Apps button within the Locker allows you to easily toggle between various apps on your ActivPanel. To access Recent Apps, select the **Unified Menu**, then tap **Recent Apps**.

This displays all of your recently opened applications, including apps from connected devices such as an ActivConnect OPS-G or Promethean Chromebox.

Depending on how many apps you currently have open, there may be multiple pages, denoted by small white dots at the bottom of the Recent Apps window. Swipe to the **right** or **left** to navigate between pages.

To return to any of these open apps, simply select the **app**.

To close apps, much like you do on your smart phone, simply tap the little **x** to the bottom right of an app.
