

Opening Explain Everything projects with Cloud Connect on your ActivPanel 9 and ActivPanel 9 Premium

- You may easily create Explain Everything lessons from within your *Explain Everything account. Begin by creating your Explain Everything lesson in a web browser at <u>https://explaineverything.com/</u>.
- 2. Select the **export icon** in the upper right corner of the screen. Next, select **Export as**, then **Project**.

3. Select Proceed with Export.

- 4. Find your exported Explain Everything project in your computer's Downloads file and upload it to your Google Drive or Microsoft OneDrive.
- 5. On your ActivPanel 9 or ActivPanel 9 Premium, make sure you have linked your <u>Google Drive</u> or <u>Microsoft OneDrive</u> to Promethean Cloud Connect in the Applications Menu.
- 6. Open the **Explain Everything Whiteboard app** from the Applications Menu. From the Home screen, tap **Files**.

*Available with all Explain Everything plans.

7. Select your connected **Google Drive** or **Microsoft OneDrive**.
